ALL GARDENERS!

Grab your pen and paper and get ready for a deep dive into the important subject of soil!

Gaye Hammond is the ultimate researcher and she will take us through the importance of good soil, move into soil testing and pH, give us up-to-the-minute research based information on fertilizers and end with the importance of mulch - and in Gaye's words (with a Texas accent) "it's not just for "pretty!"

ABOUT GAYE...

Gaye Hammond has been in leadership positions in the HOUSTON ROSE SOCIETY for many years - helping them become one of the most successful societies in the country.

Gaye is a life member and patron of American Rose Society and serves on the Marketing Committee of the national organization. Gaye is also the study liaison between the Houston Rose Society and the Texas A&M AgriLife Extension Service in connection with Earth - Kind® Rose Research - the largest environmental rose research study done in the U.S.

Gaye is an entertaining speaker and an avid writer of more than 300 articles that have been published in local, state, national and international magazines, and newspapers. She has co-authored a peer-reviewed journal article on Earth-Kind Roses published in 2009 in Floriculture & Ornamental Biotechnology, a chapter in The Sustainable Rose Garden and authored a chapter in the book, Gulf Coast Gardening. Her photography has appeared on the cover of HortScience (December 2010) and she was awarded the cover story for the September 2011 issue of Parks & Recreation Magazine.
